

Please cancel claims 21 and 22.

Please amend claims 1, 6-8, 12, 16-18 and 23-24 as follows:

1. (currently amended) A guide, comprising:
a frame, releasably attachable to a computer screen, comprising a viewing portion;
a first ~~rod~~ **bar** movably attached to said frame wherein said first ~~rod~~ **bar** crosses said viewing portion
a second rod movably attached to said frame wherein said second ~~rod~~ **bar** crosses said viewing portion and intersects said first ~~rod~~ **bar** ,

wherein each of the first and second bars are:

made of one of a rigid or a semi-rigid material, and

substantially transparent.

2. (Original) A guide according to claim 1, wherein said frame is attached to the computer screen by a mounting component.
3. (Original) A guide according to claim 2, wherein said mounting component includes an adhesive, a hook and latch fastener or a magnet.
4. (Original) A guide according to claim 1, wherein said frame has a quadrilateral shape.
5. (Previously presented) A guide according to claim 4, wherein said quadrilateral shape is a rectangle having a pair of long sides and a pair of short sides.
6. (currently amended) A guide according to claim 5, wherein said first ~~rod~~ **bar** is oriented in a direction of said pair of long sides and said second ~~rod~~ **bar** is oriented in a direction of said pair of short sides.

7. (currently amended) A guide according to claim 6, wherein an intersection of said first ~~rod~~ **bar** and said second ~~rod~~ **bar** form a right angle.

8. (currently amended) A guide according to claim 7, wherein said first ~~rod~~ **bar** and ~~said~~ second ~~rod~~ **bar** have high aspect ratios.

9. (Original) A guide according to claim 1, wherein said frame is transparent.

10. (Original) A guide according to claim 9, wherein said frame is made of acrylic.

11. (Original) A guide according to claim 1, further comprising a lip attached to said frame.

12. (currently amended) A guide, comprising:

a frame having a viewing portion and attachable to a computer screen, wherein said viewing portion is of a same dimension as the computer screen;

a first ~~rod~~ **bar** movably attached to said frame wherein said first ~~rod~~ **bar** crosses said viewing portion;

a second ~~rod~~ **bar** movably attached to said frame wherein said second rod crosses said viewing portion and intersects said first ~~rod~~ **bar**; and

a mounting component wherein said mounting component is used to attach said frame to said computer screen;

wherein each of the first and second bars are:

made of one of a rigid or a semi-rigid material, and

substantially transparent.

13. (Original) A guide according to claim 12, wherein said mounting component includes an adhesive, a hook and latch fastener or a magnet.

14. (Original) A guide according to claim 12, wherein said frame has a quadrilateral shape.

15. (Original) A guide according to claim 14, wherein said rectangular shape is a rectangle having a pair of long sides and a pair of short sides.

16. (currently amended) A guide according to claim 15, wherein said first ~~rod~~ **bar** is oriented in a direction of said pair of long sides and said second ~~rod~~ **bar** is oriented in a direction of said pair of short sides.

17. (currently amended) A guide according to claim 16, wherein an intersection of said first ~~rod~~ **bar** and said second ~~rod~~ **bar** form a right angle.

18. (currently amended) A guide according to claim 17, wherein said first ~~rod~~ **bar** and ~~said~~ second ~~rod~~ **bar** have high aspect ratios.

19. (Original) A guide according to claim 12, wherein said frame is transparent.

20. (Original) A guide according to claim 19, wherein said frame is made of acrylic.

21. cancelled.

22. cancelled.

23. (currently amended) The guide of claim 1, where said first ~~rod~~ **bar** is attached to a first pair of grooves in said frame and said second ~~rod~~ **bar** is attached to a second pair of grooves in said frame.

24. (currently amended) The guide of claim 12, where said first ~~rod~~ bar is attached to a first pair of grooves in said frame and said second ~~rod~~ bar is attached to a second pair of grooves in said frame.
